#### **Important Notice:**

This report has been prepared for the purposes and use of the person named on the report. In order to ensure that you have sight of a current and up to date copy of the Home Report it is **essential** that you log onto www.onesurvey.org (free of charge) to download a copy personalised in your own name. This enables both Onesurvey and the Surveyor to verify that you have indeed had sight of the appropriate copy of the Home Report prior to your purchasing decision. This personalised report can then be presented to your legal and financial advisers to aid in the completion of your transaction. **Failure to obtain a personalised copy may prevent the surveyor having any legal liability to you as they will be unable to determine that you have relied on this report prior to making an offer to purchase.** 

Neither the whole, nor any part of this report may be included in any published document, circular or statement, nor published in any way without the consent of Onesurvey Ltd. Only the appointed Chartered Surveyor can utilise the information contained herein for the purposes of providing a transcription report for mortgage/loan purposes.

PART 1

## SINGLE SURVEY

A report on the condition of the property, with categories being rated from 1 to 3.

## Single Survey

## Survey report on:

Surveyor Reference	XP075680/GMW/LM
Executry Of	Ms. Ann May Stephen
Selling address	Berwick House
	548 Lanark Road West
	Balerno
	EH14 7BW
Date of Inspection	13/08/2024
Prepared by	Grant Williams, BSc, FRICS Edinburgh - Allied Surveyors Scotland Ltd

#### SINGLE SURVEY TERMS AND CONDITIONS (WITH MVR)

#### **PART 1 - GENERAL**

#### 1.1 THE SURVEYORS

The Seller has engaged the Surveyors to provide the Single Survey Report and a generic Mortgage Valuation Report for Lending Purposes. The Seller has also engaged the Surveyors to provide an Energy Report in the format prescribed by the accredited Energy Company.

The Surveyors are authorised to provide a transcript or retype of the generic Mortgage Valuation Report on to Lender specific pro-forma. Transcript reports are commonly requested by Brokers and Lenders. The transcript report will be in the format required by the Lender but will contain the same information, inspection date and valuation figure as the generic Mortgage Valuation Report and the Single Survey. The Surveyors will decline any transcript request which requires the provision of information additional to the information in the Report and the generic Mortgage Valuation Report until the Seller has conditionally accepted an offer to purchase made in writing.

Once the Seller has conditionally accepted an offer to purchase made in writing, the Purchaser's lender or conveyancer may request that the Surveyors provide general comment on standard appropriate supplementary documentation. In the event of a significant amount of documentation being provided to the Surveyors, an additional fee may be incurred by the Purchaser. Any additional fee will be agreed in writing.

If information is provided to the Surveyors during the conveyancing process which materially affects the valuation stated in the Report and generic Mortgage Valuation Report, the Surveyors reserve the right to reconsider the valuation. Where the Surveyors require to amend the valuation in consequence of such information, they will issue an amended Report and generic Mortgage Valuation Report to the Seller. It is the responsibility of the Seller to ensure that the amended Report and generic Mortgage Valuation Report are transmitted to every prospective Purchaser.

The individual Surveyor will be a member of the Royal Institution of Chartered Surveyors who is competent to survey, value and report upon Residential Property. <sup>1</sup>

If the Surveyors have had a previous business relationship within the past two years with the Seller or Sellers Agent or relative to the property, they will be obliged to indicate this by ticking the adjacent box.

 $\overline{\Omega}$ 

The Surveyors have a written complaints handling procedure. This is available from the offices of the Surveyors at the address stated.

#### 1.2 THE REPORT

The Surveyors will not provide an amended Report on the Property, except to correct factual inaccuracies.

<sup>&</sup>lt;sup>1</sup> Which shall be in accordance with the current RICS Valuation Standards (the Red Book) and RICS Codes of Conduct

The Report will identify the nature and source of information relied upon in its preparation.

The Surveyor shall provide a Market Value of the Property, unless the condition of the Property is such that it would be inappropriate to do so. A final decision on whether a loan will be granted rests with the Lender who may impose retentions in line with their lending criteria. The date of condition and value of the property will be the date of inspection.

To date, Purchasers have normally obtained their own report from their chosen Surveyor. By contrast, a Single Survey is instructed by the Seller and made available to all potential Purchasers in expectation that the successful Purchaser will have relied upon it. The Royal Institution of Chartered Surveyors rules require disclosure of any potential conflict of interest when acting for the Seller and the Purchaser in the same transaction. The Single Survey may give rise to a conflict of interest and if this is of concern to any party they are advised to seek their own independent advice.

The Report and any expressions or assessments in it are not intended as advice to the Seller or Purchaser or any other person in relation to an asking price or any other sales or marketing decisions.

The Report is based solely on the Property and is not to be relied upon in any manner whatsoever when considering the valuation or condition of any other property.

If certain minor matters are mentioned in the Report it should not be assumed that the Property is free of other minor defects.

Neither the whole nor any part of the Report may be published in any way, reproduced or distributed by any party other than the Seller, prospective purchasers and the Purchaser and their respective professional advisers without the prior written consent of the Surveyors.

#### 1.3 LIABILITY

The Report is prepared with the skill and care reasonably to be expected of a competent residential surveyor who is a member of the Royal Institution of Chartered Surveyors.

The Report is addressed to the Seller and was prepared in the expectation that it (or a complete copy) along with these Terms and Conditions (or a complete copy) would (or, as the case might be, would have been) be disclosed and delivered to

- the Seller;
- any person(s) noting an interest in purchasing the Property from the Seller;
- any person(s) who make(s) (or on whose behalf is made) an offer to purchase the Property, whether or not that offer is accepted by the Seller:
- the Purchaser; and
- the professional advisers of any of these.

The Surveyors acknowledge that their duty of skill and care in relation to the Report is owed to the Seller and to the Purchaser. The Surveyors accept no responsibility or liability whatsoever in relation to the Report to persons other than the Seller and the Purchaser. The Seller and Purchaser should be aware that if a Lender seeks to rely on this Report they do so at their own risk. In particular, the Surveyors accept no responsibility or liability whatsoever to any Lender in relation to the Report. Any such Lender relies upon the Report entirely at their own risk.

#### 1.4 GENERIC MORTGAGE VALUATION REPORT

The Surveyors undertake to the Seller that they will prepare a generic Mortgage Valuation Report, which will be issued along with the Single Survey. It is the responsibility of the Seller to ensure that the generic Mortgage Valuation Report is provided to every potential Purchaser.

#### 1.5 TRANSCRIPT MORTGAGE VALUATION FOR LENDING PURPOSES

The Surveyors undertake that on being asked to do so by a prospective purchaser, or his/her professional advisor or Lender, they will prepare a Transcript Mortgage Valuation Report for Lending Purposes on terms and conditions to be agreed between the Surveyors and Lender and solely for the use of the Lender and upon which the Lender may rely. The decision as to whether finance will be provided is entirely a matter for the Lender. The Transcript Mortgage Valuation Report will be prepared from information contained in the Report and the generic Mortgage Valuation Report. 2

#### 1.6 INTELLECTUAL PROPERTY

All intellectual property rights whatsoever (including copyright) in and to the Report, excluding the headings and rubrics, are the exclusive property of the Surveyors and shall remain their exclusive property unless they assign the same to any other party in writing.

#### 1.7 PAYMENT

The Surveyors are entitled to refrain from delivering the Report to anyone until the fee and other charges for it notified to the Seller have been paid. Additional fees will be charged for subsequent inspections and Reports.

#### 1.8 CANCELLATION

The Seller will be entitled to cancel the inspection by notifying the Surveyor's office at any time before the day of the inspection.

The Surveyor will be entitled not to proceed with the inspection (and will so report promptly to the Seller) if after arriving at the property, the Surveyor concludes that it is of a type of construction of which the surveyor has insufficient specialist knowledge to be able to provide the inspection satisfactorily. The Surveyor will also be entitled not to proceed if after arriving at the property, the surveyor concludes that the property is exempt under Part 3 of The Housing (Scotland) Act 2006 as detailed in the (Prescribed Documents) Regulations 2008. If there is a potential threat to their health or personal safety, the inspection may be postponed or cancelled, at the Surveyor's discretion.

In the case of cancellation or the inspection not proceeding, the Surveyor will refund any fees paid by the Seller for the inspection and Report, except for

expenses reasonably incurred and any fee due in light of the final paragraph of this section.

In the case of cancellation by the Seller, for whatever reason, after the inspection has taken place but before a written report is issued, the Surveyor will be entitled to raise an Invoice equivalent to 80% of the agreed fee.

#### 1.9 PRECEDENCE

If there is any incompatibility between these Terms and Conditions and the Report, these Terms and Conditions take precedence.

#### 1.10 DEFINITIONS

- the "Lender" is the party who has provided or intends or proposes to provide financial assistance to the Purchaser towards the purchase of the Property and in whose favour a standard security will be granted over the Property;
- the "Transcript Mortgage Valuation Report for Lending Purposes" means a separate report, prepared by the Surveyor, prepared from information in the Report and the generic Mortgage Valuation Report, but in a style and format required by the Lender. The Transcript Mortgage Valuation Report for Lending Purposes will be prepared with the skill and care reasonably to be expected from a surveyor who is a member of the Royal Institution of Chartered Surveyors and who is competent to survey, value and report on the Property;
- the "Generic Mortgage Valuation Report" means a separate report, prepared by the Surveyor from information in the Report but in the Surveyor's own format.
- the "Market Value" is The estimated amount for which a property should exchange on the date of valuation between a willing buyer and a willing seller in an arm's-length transaction after proper marketing wherein the parties had each acted knowledgeably, prudently and without compulsion
- the "Property" is the property which forms the subject of the Report;
- the "Purchaser" is the person (or persons) who enters into a contract to buy the Property from the Seller;
- a "prospective Purchaser" is anyone considering buying the Property.
- the "Report" is the report, of the kind described in Part 2 of these Terms and Conditions and in the form set out in part 1 of Schedule 1 of the Housing (Scotland) Act 2006 (Prescribed Documents) Regulations 2008;
- the "Seller" is/are the proprietor(s) of the Property;
- the "Surveyor" is the author of the Report on the Property; and

<sup>2</sup> Which shall be in accordance with the current RICS Valuation Standards (the Red Book) and RICS Rules of Conduct.

- the "Surveyors" are the firm or company of which the Surveyor is an employee, director, member or partner (unless the Surveyor is not an employee, director, member or partner, when the "Surveyors" means the Surveyor) whose details are set out at the head of the Report.
- the "Energy Report" is the advice given by the accredited Energy Company, based on information collected by the Surveyor during the Inspection, and also includes an Energy Performance Certificate, in a Government approved format.

#### **PART 2 - DESCRIPTION OF THE REPORT**

#### 2.1 THE SERVICE

The Single Survey is a Report by an independent Surveyor, prepared in an objective way regarding the condition and value of the Property on the day of the inspection, and who is a member of the Royal Institution of Chartered Surveyors. It includes an Energy Report as required by Statute and this is in the format of the accredited Energy Company. In addition, the Surveyor has agreed to supply a generic Mortgage Valuation Report.

#### 2.2 THE INSPECTION

The Inspection is a general surface examination of those parts of the Property which are accessible: in other words, *visible and readily available for examination from ground and floor levels, without risk of causing damage to the Property or injury to the Surveyor.* 

All references to visual inspection refer to an inspection from within the property at floor level and from ground level within the site and adjoining public areas, without the need to move any obstructions. Any references to left or right are taken facing the front of the property.

The Inspection is carried out with the Seller's permission, without causing damage to the building or contents. Furniture, stored items and insulation are not moved.

Unless identified in the report the Surveyor will assume that no harmful or hazardous materials have been used in the construction. The presence or possible consequences of any site contamination will not be researched.

The Surveyor will not carry out an asbestos inspection, and will not be acting as an asbestos inspector in completing a Single Survey of properties that may fall within the Control of Asbestos in the Workplace Regulations. In the case of flats it will be assumed that there is a duty holder, as defined in the Regulations and that a Register of Asbestos and effective Management Plan is in place, which does not require any expenditure, or pose a significant risk to health. No enquiry of the duty holder will be made.

#### 2.3 THE REPORT

The Report will be prepared by the Surveyor who carried out the property inspection and will describe various aspects of the property as defined by the headings of the Single Survey report with the comments being general and unbiased. The report on the location, style and condition of the property, will be concise and will be restricted to matters that could have a material effect upon value and will omit items that, in the Surveyor's opinion, are not

significant. If certain minor matters are mentioned, it should not be interpreted that the property is free of any other minor defects.

Throughout the report, the following repair categories will be used to give an overall opinion of the state of repair and condition of the property.

- 2.3.1 <u>Category 3</u>: Urgent repairs or replacement are needed now. Failure to deal with them may cause problems to other parts of the property or cause a safety hazard. Estimates for repairs or replacement are needed now.
- 2.3.2 <u>Category 2</u>: Repairs or replacement requiring future attention, but estimates are still advised.
- 2.3.3 Category 1: No immediate action or repair is needed.

**WARNING**: If left unattended, even for a relatively short period, Category 2 repairs can rapidly develop into more serious Category 3 repairs. The existence of Category 2 or Category 3 repairs may have an adverse effect on marketability, value and the sale price ultimately achieved for the property. This is particularly true during slow market conditions when the effect can be considerable.

Parts of the property, which cannot be seen or accessed, will not be reported upon and this will be stated. If the Surveyor suspects that a defect may exist within an unexposed area and which could have a material effect upon the value, he may recommend further investigation by specialist contractors.

#### 2.4 SERVICES

Surveyors are not equipped or qualified to test the services and therefore no comment can be interpreted as implying that the design, installation and function of the services are in accordance/compliance with regulations, safety and efficiency expectations. However, comment is made where there is cause to suspect significant defects or shortcomings with the installations. No tests are made of any services or appliances.

#### 2.5 ACCESSIBILITY

A section is included to help identify the basic information interested parties need to know to decide whether to view a property.

#### 2.6 ENERGY REPORT

A section is included that makes provision for an Energy Report, relative to the property. The Surveyor will collect physical data from the property and provide such data in a format required by an accredited Energy Company. The Surveyor cannot of course accept liability for any advice given by the Energy Company.

#### 2.7 VALUATION AND CONVEYANCER ISSUES

The last section of the Report contains matters considered relevant to the Conveyancer (Solicitor). It also contains the Surveyor's opinion both of the market value of the property and of the re-instatement cost, as defined below.

"Market Value" The estimated amount for which a property should exchange on the date of valuation between a willing buyer and a willing seller in an

arm's-length transaction after proper marketing wherein the parties had each acted knowledgeably, prudently and without compulsion. In arriving at the opinion of the Market Value the Surveyor also makes various standard assumptions covering, for example, vacant possession; tenure and other legal considerations; contamination and hazardous materials; the condition of un-inspected parts; the right to use mains services; and the exclusion of curtains, carpets etc. from the valuation. In the case of flats, the following further assumptions are made that:

- \*There are rights of access and exit over all communal roadways, corridors, stairways etc. and to use communal grounds, parking areas, and other facilities;
- ➤ \*There are no particularly troublesome or unusual legal restrictions;
- \*There is no current dispute between the occupiers of the flats or any outstanding claims or losses; and the costs of repairs to the building are shared among the co-proprietors on an equitable basis.

Any additional assumption, or any found not to apply, is reported.

"Re-instatement cost" is an estimate for insurance purposes of the current cost of rebuilding the Property in its present form unless otherwise stated. This includes the cost of rebuilding the garage and permanent outbuildings, site clearance and professional fees, but excludes VAT (except on the fees).

Sellers or prospective Purchasers may consider it prudent to instruct a reinspection and revaluation after a period of 12 weeks (or sooner if appropriate) to reflect changing circumstances in the market and/or in the physical condition of the Property

#### 1. INFORMATION AND SCOPE OF INSPECTION

This section tells you about the type, accommodation, neighbourhood, age and construction of the property. It also tells you about the extent of the inspection and highlights anything that the Surveyor could not inspect.

All references to visual inspection refer to an inspection from within the property without moving any obstructions and externally from ground level within the site and adjoining public areas. Any references to left or right in a description of the exterior of the property refer to the view of someone standing facing that part of the property from the outside.

The inspection is carried out without causing damage to the building or its contents and without endangering the occupiers or the Surveyor. Heavy furniture, stored items and insulation are not moved. Unless identified in the report the Surveyor will assume that no harmful or hazardous materials or techniques have been used in the construction. The presence or possible consequences of any site contamination will not be researched.

Services such as TV/cable connection, internet connection, swimming pools and other leisure facilities will not be inspected or reported on.

Description	The subject property comprises a two storey detached dwelling.
Accommodation	Ground floor:- Entrance vestibule, hall, lounge, dining room, kitchen/breakfast room, bedroom with jack and jill style bathroom with WC, utility room, front vestibule, inner hall and two WC compartments.
	First floor:- Master bedroom with en-suite shower room with WC and dressing room, three further bedrooms two of which share a jack and jill style shower room with WC.
Gross internal floor area (m2)	284.53 sq. metres
Neighbourhood and location	The property is located on the north side of Lanark Road West between the intersections with Ravelrig Gait and Ravelrig Park. This is a predominantly residential area of Balerno, and where the surrounding properties are mainly of similar style and nature.
Age	The property was constructed in the grounds of a property known as Northfield around 2010.
Weather	It was dry at the time of our inspection.
Chimney stacks	There is one chimney stack pertaining to the subject property. This is of brick and roughcast construction, incorporating a granolithic cope and clay chimney pot with a gas terminal on the top.  Visually inspected with the aid of binoculars where required.

Roofing including roof space	The roof is of a pitched timber truss construction clad in concrete tiles secured onto timber sarking branders.
	Access was gained into the roof space via a hatch in the ceiling of one of the first floor bedrooms. Insulation has been laid between the ceiling ties.
	Sloping roofs were visually inspected with the aid of binoculars where required.
	Roof spaces were visually inspected and were entered where there was safe and reasonable access, normally defined as being from a 3m ladder within the property. If this is not possible, then physical access to the roof space may be taken by other means if the Surveyor deems it safe and reasonable to do so.
Rainwater fittings	The rainwater installation is of uPVC gutters discharging to tubular uPVC downpipes.
	Visually inspected with the aid of binoculars where required.
Main walls	The property is of timber frame construction externally clad in a mixture of roughcasted blockwork and mock stone facings.
	Visually inspected with the aid of binoculars where required. Foundations and concealed parts were not exposed or inspected.
Windows, external doors and joinery	Access to the subject property at the front is afforded by two doors. Both doors are of timber frame construction clad in tongued and grooved boarding.
	Access to the garden ground from the lounge and the kitchen/breakfast room is afforded by uPVC framed doors fitted with hermetically sealed double-glazed panes.
	The external window frames are mainly of a timber case design, fitted with hermetically sealed double-glazed panes. There are also some uPVC windows at first floor level, again, double-glazed.
	Internal and external doors were opened and closed where keys were available.
	Random windows were opened and closed where possible.
	Doors and windows were not forced open.
External decorations	The external timbers are painted.
	Visually inspected.
Conservatories / porches	Not applicable.
Communal areas	Not applicable.

	Kitchen units were visually inspected excluding appliances.
	Built-in cupboards were looked into but no stored items were moved.
	The internal doors are a mixture of timber panel and timber/glazed.
Internal joinery and kitchen fittings	The kitchen contains an adequate number of wall and base units incorporating marble worktops and a composite sink and drainer. There is a further circular composite sink within the kitchen.
	Surfaces of exposed floors were visually inspected. No carpets or floor coverings were lifted.
Floors including sub floors	The flooring is a mixture of suspended timber joists overlaid in tongued and grooved boarding and solid concrete.
	Using a moisture meter, walls were randomly tested for dampness where considered appropriate.
	Visually inspected from floor level.
	There is wall tiling to the bathroom and shower rooms.
Internal walls	The internal walls and partitions are formed in plasterboard.
	Visually inspected from floor level.
	Some of the ceilings have gyproc coving.
Ceilings	The ceilings throughout are finished in sheet plasterboard.
	Visually inspected.
	The garden ground is delineated by a mixture of stone walling, timber fencing, metal fencing and hedging.
Outside areas and boundaries	We believe the property sits in approximately 1.36 acres of garden ground. The property has a private driveway off Lanark Road West to the front which has electrically controlled metal gates.
	Visually inspected.
	There is an insulated roof space above the garage accessed by a retractable ladder.
	Access to the garage at the front is afforded by a metal up-and-over door which is electrically controlled. A timber panel door also provides access to the rear garden ground from the garage.
	The roof has a mixture of photovoltaic and solar panels on the south elevation.
	The garage is of blockwork construction with a roughcast cladding under a pitched and tiled roof.
Garages and permanent outbuildings	There is a double car garage to the side of the property which is also accessed from the utility room.

Chimney breasts and fireplaces	There is a fireplace within the lounge that is fitted with a coal-effect gas fire.  Visually inspected. No testing of the flues or fittings was carried out.
Internal decorations	The subjects have an emulsion paint finish to walls and ceilings and an oil based paint finish to internal timbers.  Visually inspected.
Cellars	None.
Electricity	The property has the benefit of a mains supply of electricity serving 13-amp power points throughout.
	A circuit breaker distribution board is fitted and is located within the garage.
	There are photovoltaic panels on the garage roof, supplementing the electricity supply.
	Accessible parts of the wiring were visually inspected without removing fittings. No tests whatsoever were carried out to the system or appliances.
	Visual inspection does not assess any services to make sure they work properly and efficiently and meet modern standards. If any services are turned off, the Surveyor will state that in the report and will not turn them on.
Gas	The property has the benefit of a mains supply of gas.
	Accessible parts of the system were visually inspected without removing fittings. No tests whatsoever were carried out to the system or appliances.
	Visual inspection does not assess any services to make sure they work properly and efficiently and meet modern standards. If any services are turned off, the Surveyor will state that in the report and will not turn them on.

Water, plumbing and bathroom fittings	The property has the benefit of a mains supply of cold water.
	The sanitary fittings to both WC compartments comprise white WCs and wash hand basins.
	The sanitary fittings to the bathroom at ground floor level comprises a four piece white suite.
	The sanitary fittings to the en-suite shower room off the master bedroom comprises a three piece white suite.
	The sanitary fittings to the second en-suite shower room comprises a white WC and wash hand basin with a tiled wet floor area around the shower.
	Exposed plumber's pipework we were able to examine is of modern copper and PVC.
	Visual inspection of the accessible pipework, water tanks, cylinders and fittings without removing any insulation.
	No tests whatsoever were carried out to the system or appliances.
Heating and hot water	Central heating takes the form of a wall-mounted gas-fired boiler in the garage serving pressed steel radiators throughout the property. The radiators are fitted with individual thermostatic valves.
	Domestic hot water is provided by the central heating boiler as well as solar panels located on the garage roof. The hot water cylinder is located in the garage beside the central heating boiler and is insulated. An electric immersion heater has also been fitted.
	There is electric underfloor heating to the bathroom and both en-suite shower rooms.
	There is also an air recirculation system within the property with the main plant being located in the roof space.
	Accessible parts of the system were visually inspected apart from communal systems, which were not inspected.
	No tests whatsoever were carried out to the system or appliances.
Drainage	<u> </u>
Drainage	Foul and storm drainage are assumed to be connected to the main sewer.
Drainage	Poul and storm drainage are assumed to be connected to the main sewer.  Drainage covers etc were not lifted.

## Fire, smoke and burglar alarms

The subjects have the benefit of smoke detectors. There is a security system.

Visually inspected.

No test whatsoever were carried out to any systems or appliances.

There is now a requirement in place for compliant interlinked fire, smoke and heat detectors in residential properties. The new fire smoke and alarm standard came into force in Scotland in February 2022, requiring a smoke alarm to be installed in the room most frequently used for living purposes and in every circulation space on each floor. A heat alarm also requires to be installed in each kitchen. The alarms need to be ceiling mounted and interlinked. Where there is a carbon fuelled appliance such as a boiler, open fire or wood burner etc. a carbon monoxide detector is also required.

The surveyor will only comment on the presence of a smoke detector etc. but will not test them, ascertain if they are in working order, interlinked and / or fully compliant with the fire and smoke alarm standard that was introduced in 2022.

We have for the purposes of the report, assumed the system is fully compliant, if not then the appropriate compliant system will required to be installed prior to sale. This of course should be confirmed by your legal advisor.

## Any additional limits to inspection

It will be appreciated that parts of the property, which are covered, unexposed or inaccessible, cannot be guaranteed to be free from defect.

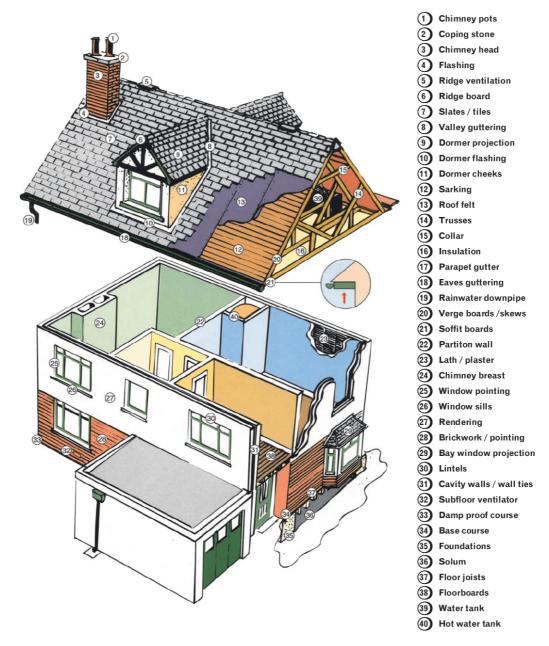

This report does not constitute a full and detailed description of the property and a structural investigation was not carried out. No inspection was undertaken of woodwork or other parts of the structure which are covered, unexposed or otherwise inaccessible and as a result no guarantee can be given that such parts of the structure are free from rot, beetle or other defects.

No removal of internal linings has been carried out in order to ascertain the condition of hidden parts and no warranty can be given regarding the areas not specifically referred to in this report.

The external building fabric has been inspected from ground level only from the subjects grounds and where possible from adjoining public property. Exposure work has not been carried out. The roof structure has not been examined from within the roof space. Stored items and insulation have not been moved.

An inspection for Japanese Knotweed was not carried out. This is a plant which is subject to control regulation, is considered to be invasive and one which can render a property unsuitable for some mortgage lenders. It is therefore assumed that there is no Japanese Knotweed within the boundaries of the property or its neighbouring property. Identification of Japanese Knotweed is best undertaken by a specialist contractor. If it exists removal must be undertaken in a controlled manner by specialist contractors. This can prove to be expensive.

#### Sectional Diagram showing elements of a typical house

Reference may be made in this report to some or all of the above component parts of the property. This diagram may assist you in locating and understanding these items.

#### 2. CONDITION

This section identifies problems and tells you about the urgency of any repairs by using one of the above 3 categories:

Category 3	Category 2	Category 1
to other parts of the property or cause a safety	Repairs or replacement requiring future attention, but estimates are still advised.	No immediate action or repair is needed.

Structural movemen	t
Repair category:	1
Notes:	No significant structural movement was observed within the accessible portions of the building fabric.

Dampness, rot and infestation	
Repair category:	
Notes:	Random testing with a moisture meter did not reveal any significant levels of dampness to lower wall areas within the subject property.
	We found no evidence of appreciable rot or infestation with the visible areas inspected.

Chimney stacks	
Repair category:	
Notes:	No significant defects noted.

Roofing including roof space	
Repair category:	
Notes:	There were a couple of cracked and misaligned tiles to the roof that would benefit from being replaced as part of routine maintenance work.
	There was a significant amount of insulation within the roof space.

Category 3	Category 2	Category 1
	Repairs or replacement requiring future attention, but estimates are still advised.	No immediate action or repair is needed.

Rainwater fittings	
Repair category:	1
Notes:	The installation appeared to be discharging water effectively at the time of our inspection.
	Roofs are prone to water penetration during adverse weather but it is not always possible for surveyors to identify this likelihood in good or dry weather. All roofs should be inspected and repaired by reputable tradesmen on an annual basis and especially after storms.

Main walls	
Repair category:	
Notes:	Some minor cracking and slight lamination of the mock stone facings to the outer walls was noted.

Windows, external doors and joinery	
Repair category:	2
Notes:	Some minor softening and decay of sections of the window frames, especially the sills, was evident.
	Whilst there was no further obvious defect on the date of our inspection, it should be appreciated that double glazed sealed units do have a limited life expectancy and defective seals can lead to condensation between the panes, necessitating in replacement of the units. This can sometimes only be obvious during adverse weather conditions.

External decorations	
Repair category:	2
Notes:	The external paintwork to sections of the window frames was beginning to deteriorate, causing damage to the timbers. The paintwork will require renewal after repairs have taken place.

		1	
Category 3		Category 2	Category 1
Urgent repairs or replacement are needed now. Failure to deal with them may cause problems to other parts of the property or cause a safety hazard. Estimates for repairs or replacement are needed now.		Repairs or replacement requiring future attention, but estimates are still advised.	No immediate action or repair is needed.
Conservatories / po	orches		
Repair category:			
Notes:	Not applicable.		
Communal areas			
Repair category:			
Notes:	Not applicable.		
Garages and perm	anent outbuildings		
Repair category:			
Notes:	No significant defects note	ed.	
Outside areas and	boundaries		
Repair category:	1		
Notes:	Minor damage was evident to sections of timber fencing, especially on the front boundary.		
Ceilings			
Repair category:	1		
Notes:	Minor plaster cracking was evident to plasterboard joints which will require some cosmetic repair in conjunction with redecoration.		
Internal walls			
Repair category:	1		
Notes:	Minor cracking was evider cosmetic repair in conjunc	nt to plasterboard wall joints vition with redecoration.	which will require

Category 3	Category 2	Category 1
	Repairs or replacement requiring future attention, but estimates are still advised.	No immediate action or repair is needed.

Floors including sub-floors	
Repair category:	
Notes:	No significant defects noted.

Internal joinery and kitchen fittings	
Repair category:	
Notes:	The internal joinery and kitchen fitments, whilst not specifically tested, appeared functional.

Chimney breasts ar	nd fireplaces
Repair category:	2
Notes:	At the time of our inspection, there was a safety notice on the coal-effect gas fire. This now requires to be checked and either repaired or replaced.

Internal decorations	
Repair category:	
Notes:	Whilst internal decoration is largely a matter of taste, the subjects were found to be in reasonable condition.

Cellars	
Repair category:	
Notes:	Not applicable.

Category 3	Category 2	Category 1
	Repairs or replacement requiring future attention, but estimates are still advised.	No immediate action or repair is needed.

Electricity	
Repair category:	
Notes:	The electrical wiring system appears to be original to the property. It should be appreciated that as electrical regulations are being continually updated, only the most recently constructed or rewired properties fully comply with the latest IEE regulations.
	The trade bodies governing electrical installations currently advise that these should be tested prior to a change of occupancy and, thereafter, at least once every five years, by a competent Electrician.
	The electrical wiring system should therefore be checked, tested and upgraded if necessary by an NIC/EIC Registered electrician. Any recommendations made with regard to the safety of the installation should be undertaken.

Gas	
Repair category:	
Notes:	The trade bodies governing gas installations currently advise that these should be tested prior to a change of occupancy and, thereafter, at least once per year, by a Gas Safe Registered Contractor.
	The gas system should therefore be checked and tested by a Gas Safe registered contractor.

Water, plumbing and bathroom fittings		
Repair category:	1	
Notes:	The sanitary fittings were of a fairly modern design and were found to be in a serviceable condition.	
	The silicone seal to the wet floor shower within the en-suite shower room was beginning to deteriorate and will require renewal in the short term.	

Category 3	Category 2	Category 1
	Repairs or replacement requiring future attention, but estimates are still advised.	No immediate action or repair is needed.

Heating and hot water		
Repair category:		
Notes:	No significant defects noted.	
	It has been assumed that the heating installation has been regularly serviced and that recent service history records will be made available. This should be checked by the conveyancer.	

Drainage	
Repair category:	1
Notes:	At the time of our inspection, we did not lift any drainage inspection covers or carry out any drainage tests and we cannot therefore comment with any authority on the condition of the drainage system. We would add that there was no evidence on the surface to suggest any major problems in this connection, but if you wish further investigations undertaken, then a competent plumber should be instructed.

Set out below is a summary of the condition of the property which is provided for reference only. You should refer to the comments above for detailed information.

Structural movement	1
Dampness, rot and infestation	1
Chimney stacks	1
Roofing including roof space	1

Chimney breasts and fireplaces	2
Internal decorations	1
Cellars	
Electricity	1
Gas	1
Water, plumbing and bathroom fittings	1
Heating and hot water	1
Drainage	1

#### Remember

The cost of repairs may influence the amount someone is prepared to pay for the property. We recommend that relevant estimates and reports are obtained in your own name.

#### Warning

If left unattended, even for a relatively short period, Category 2 repairs can rapidly develop into more serious Category 3 repairs. The existence of Category 2 or Category 3 repairs may have an adverse effect on marketability, value and the sale price ultimately achieved for the property. This is particularly true during slow market conditions where the effect can be considerable.

#### 3. ACCESSIBILITY INFORMATION

**Guidance Notes on Accessibility Information** 

<u>Three steps or fewer to a main entrance door of the property:</u> In flatted developments the 'main entrance' would be the flat's own entrance door, not the external door to the communal stair. The 'three steps or fewer' are counted from external ground level to the flat's entrance door. Where a lift is present, the count is based on the number of steps climbed when using the lift.

<u>Unrestricted parking within 25 metres:</u> For this purpose, 'Unrestricted parking' includes parking available by means of a parking permit. Restricted parking includes parking that is subject to parking restrictions, as indicated by the presence of solid yellow, red or white lines at the edge of the road or by a parking control sign, parking meters or other coinoperated machines.

1. Which floor(s) is the living accommodation on?	Ground and first.
2. Are there three steps or fewer to a main entrance door of the property?	[x]YES [ ]NO
3. Is there a lift to the main entrance door of the property?	[ ]YES [x]NO
4. Are all door openings greater than 750mm?	[x]YES [ ]NO
5. Is there a toilet on the same level as the living room and kitchen?	[x]YES [ ]NO
6. Is there a toilet on the same level as a bedroom?	[x]YES [ ]NO
7. Are all rooms on the same level with no internal steps or stairs?	[ ]YES [x]NO
8. Is there unrestricted parking within 25 metres of an entrance door to the building?	[x]YES [ ]NO

#### 4. VALUATION AND CONVEYANCER ISSUES

This section highlights information that should be checked with a solicitor or licensed conveyancer. It also gives an opinion of market value and an estimated re-instatement cost for insurance purposes.

#### Matters for a solicitor or licensed conveyancer

The property was constructed in 2010. Our valuation assumes that all necessary Local Authority consents for the construction of the property and any subsequent alterations were obtained.

Where items of maintenance or repair have been identified, the purchaser should satisfy themselves as to the costs and implications of these issues prior to making an offer to purchase.

#### Estimated re-instatement cost (£) for insurance purposes

The estimated reinstatement cost for insurance purposes is £1,124,000 (One Million One Hundred and Twenty-Four Thousand Pounds Sterling).

This figure is an opinion of an appropriate sum for which the property and substantial outbuildings should be insured against total destruction, on a reinstatement basis, assuming reconstruction of the property in its existing design and materials. Finishings and fittings have not been included. No allowance has been included for inflation during the insurance period or during reconstruction and no allowance has been made for VAT, other than on professional fees. Further discussions with your insurers are advised. The figure should be reviewed annually and in light of any future alterations or additions.

#### Valuation (£) and market comments

The market value of the property described in the report is £1,000,000 (One Million Pounds Sterling).

This figure assumes vacant possession and that the property is unaffected by any adverse planning proposals, onerous burdens, title restrictions or servitude rights.

Report author:	Grant Williams, BSc, FRICS
Company name:	Edinburgh - Allied Surveyors Scotland Ltd

# MORTGAGE VALUATION **REPORT**

Includes a market valuation of the property.

Mortgage Valuation Report			
Property:	Berwick House 548 Lanark Road West Balerno EH14 7BW		ls. Ann May Stephen lute Ownership
Date of Inspection:	13/08/2024	Reference:	XP075680/GMW/LM

This report has been prepared as part of the seller's instructions to carry out a Single Survey on the property referred to above. The purpose of this report is to summarise the Single Survey for the purpose of advising a potential lender on the suitability of the property for mortgage purposes. The decision as to whether mortgage finance will be provided is entirely a matter for the lender. You should not rely on this report in making your decision to purchase but consider all the documents provided in the Home Report. Your attention is drawn to the additional comments elsewhere within the report which set out the extent and limitations of the service provided. This report should be read in conjunction with the Single Survey Terms and Conditions (with MVR). In accordance with RICS Valuation – Global Standards 2017 this report is for the use of the party to whom it is addressed or their named client or their nominated lender. No responsibility is accepted to any third party for the whole or any part of the reports contents. Neither the whole or any part of this report may be included in any document, circular or statement without prior approval in writing from the surveyor.

#### 1.0 LOCATION

The property is located on the north side of Lanark Road West between the intersections with Ravelrig Gait and Ravelrig Park. This is a predominantly residential area of Balerno, and where the surrounding properties are mainly of similar style and nature.

2.0	DESCRIPTION	2.1 Age:	The property was	
		_	constructed in the grounds	
			of a property known as	
			Northfield around 2010.	

The subject property comprises a two storey detached dwelling.

#### 3.0 CONSTRUCTION

Timber framed construction externally clad in a mixture of roughcasted blockwork and mock stone facings. The roof is pitched and tiled.

#### 4.0 ACCOMMODATION

Ground floor:- Entrance vestibule, hall, lounge, dining room, kitchen/breakfast room, bedroom with jack and jill style bathroom with WC, utility room, front vestibule, inner hall and two WC compartments.

First floor:- Master bedroom with en-suite shower room with WC and dressing room, three further bedrooms two of which share a jack and jill style shower room with WC.

5.0	SERVICES	SERVICES (No tests have been applied to any of the services)						
Water:	Mains	ins <b>Electricity</b> : Mains <b>Gas</b> : Mains <b>Drainage</b> : Mains						
Central He	eating:		Gas fired boiler serving radiators throughout. System is supplemented by solar panels on the roof of the garage.					
6.0	OUTBUILD	DINGS						
Garage:		Double car garage attached to the side of the property. The garage is of block and roughcast construction under a pitched, tiled roof.						
Others:		-						

GENERAL CONDITION - A building survey has not been carried out, nor has any inspection been made of any woodwork, services or other parts of the property which were covered, unexposed or inaccessible. The report cannot therefore confirm that such parts of the property are free from defect. Failure to rectify defects, particularly involving water penetration may result in further and more serious defects arising. Where defects exist and where remedial work is necessary, prospective purchasers are advised to seek accurate estimates and costings from appropriate Contractors or Specialists before proceeding with the purchase. Generally we will not test or report on boundary walls, fences, outbuildings, radon gas or site contamination.  At the time of inspection, the property was found to be in generally good order throughout. Whilst some repairs are required, these are of a relatively minor nature that should be capable of remedy by routine maintenance work.

PART 3

# ENERGY REPORT

A report on the energy efficiency of the property.

## energy report

## energy report on:

Property address	Berwick House 548 Lanark Road West Balerno EH14 7BW	
Customer	Ms. Ann May Stephen	
Customer address	Berwick House	
	548 Lanark Road West	
	Balerno	
	EH14 7BW	
Prepared by	Grant Williams, BSc, FRICS	
	Edinburgh - Allied Surveyors Scotland Ltd	

### **Energy Performance Certificate (EPC)**

**Dwellings** 

## **Scotland**

#### 548 LANARK ROAD WEST, EDINBURGH, EH14 7BW

Dwelling type: Detached house
Date of assessment: 13 August 2024
Date of certificate: 18 August 2024

**Total floor area:** 285 m<sup>2</sup>

Primary Energy Indicator: 192 kWh/m²/year

**Reference number:** 9771-1046-4238-0814-5224 **Type of assessment:** RdSAP, existing dwelling

Approved Organisation: Elmhurst

**Main heating and fuel:** Boiler and radiators, mains

gas

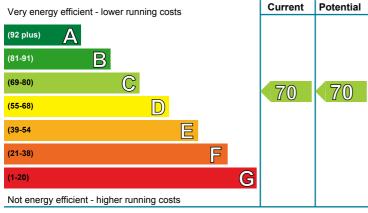

#### You can use this document to:

Compare current ratings of properties to see which are more energy efficient and environmentally friendly

#### Estimated energy costs for your home for 3 years\*

£12,552

 $^st$  based upon the cost of energy for heating, hot water, lighting and ventilation, calculated using standard assumptions

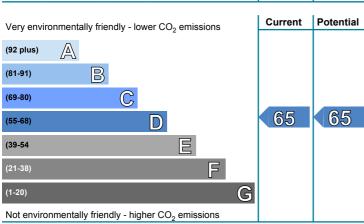

#### **Energy Efficiency Rating**

This graph shows the current efficiency of your home, taking into account both energy efficiency and fuel costs. The higher this rating, the lower your fuel bills are likely to be.

Your current rating is **band C (70)**. The average rating for EPCs in Scotland is **band D (61)**.

The potential rating shows the effect of undertaking all of the improvement measures listed within your recommendations report.

#### **Environmental Impact (CO<sub>2</sub>) Rating**

This graph shows the effect of your home on the environment in terms of carbon dioxide  $(CO_2)$  emissions. The higher the rating, the less impact it has on the environment.

Your current rating is **band D (65)**. The average rating for EPCs in Scotland is **band D (59)**.

The potential rating shows the effect of undertaking all of the improvement measures listed within your recommendations report.

#### Top actions you can take to save money and make your home more efficient

There are currently no improvement measures recommended for your home.

To find out more about the recommended measures and other actions you could take today to stop wasting energy and money, visit greenerscotland.org or contact Home Energy Scotland on 0808 808 2282.

THIS PAGE IS THE ENERGY PERFORMANCE CERTIFICATE WHICH MUST BE AFFIXED TO THE DWELLING AND NOT BE REMOVED UNLESS IT IS REPLACED WITH AN UPDATED CERTIFICATE

#### Summary of the energy performance related features of this home

This table sets out the results of the survey which lists the current energy-related features of this home. Each element is assessed by the national calculation methodology; 1 star = very poor (least efficient), 2 stars = poor, 3 stars = average, 4 stars = good and 5 stars = very good (most efficient). The assessment does not take into consideration the condition of an element and how well it is working. 'Assumed' means that the insulation could not be inspected and an assumption has been made in the methodology, based on age and type of construction.

Element	Description	Energy Efficiency	Environmental
Walls	Timber frame, as built, insulated (assumed)	****	****
Roof	Pitched, 350 mm loft insulation	****	****
Floor	Solid, insulated (assumed)	_	_
Windows	Fully double glazed	****	<b>★★★★</b> ☆
Main heating	Boiler and radiators, mains gas	****	<b>★★★★</b> ☆
Main heating controls	Programmer, TRVs and bypass	<b>★★★☆☆</b>	<b>★★★☆☆</b>
Secondary heating	Room heaters, mains gas	_	_
Hot water	From main system, plus solar	****	****
Lighting	Low energy lighting in all fixed outlets	****	****

#### The energy efficiency rating of your home

Your Energy Efficiency Rating is calculated using the standard UK methodology, RdSAP. This calculates energy used for heating, hot water, lighting and ventilation and then applies fuel costs to that energy use to give an overall rating for your home. The rating is given on a scale of 1 to 100. Other than the cost of fuel for electrical appliances and for cooking, a building with a rating of 100 would cost almost nothing to run.

As we all use our homes in different ways, the energy rating is calculated using standard occupancy assumptions which may be different from the way you use it. The rating also uses national weather information to allow comparison between buildings in different parts of Scotland. However, to make information more relevant to your home, local weather data is used to calculate your energy use, CO<sub>2</sub> emissions, running costs and the savings possible from making improvements.

#### The impact of your home on the environment

One of the biggest contributors to global warming is carbon dioxide. The energy we use for heating, lighting and power in our homes produces over a quarter of the UK's carbon dioxide emissions. Different fuels produce different amounts of carbon dioxide for every kilowatt hour (kWh) of energy used. The Environmental Impact Rating of your home is calculated by applying these 'carbon factors' for the fuels you use to your overall energy use.

The calculated emissions for your home are 34 kg CO<sub>2</sub>/m<sup>2</sup>/yr.

The average Scottish household produces about 6 tonnes of carbon dioxide every year. Based on this assessment, heating and lighting this home currently produces approximately 9.6 tonnes of carbon dioxide every year. You could reduce emissions by switching to renewable energy sources.

#### Estimated energy costs for this home

	Current energy costs	Potential energy costs	Potential future savings	
Heating	£11,490 over 3 years	£11,490 over 3 years		
Hot water	£417 over 3 years	£417 over 3 years	N	
Lighting	£645 over 3 years	£645 over 3 years	Not applicable	
Totals	£12,552	£12,552		

These figures show how much the average household would spend in this property for heating, lighting and hot water. This excludes energy use for running appliances such as TVs, computers and cookers, and the benefits of any electricity generated by this home (for example, from photovoltaic panels). The potential savings in energy costs show the effect of undertaking all of the recommended measures listed below.

#### **Recommendations for improvement**

None

#### Low and zero carbon energy sources

Low and zero carbon (LZC) energy sources are sources of energy that release either very little or no carbon dioxide into the atmosphere when they are used. Installing these sources may help reduce energy bills as well as cutting carbon.

#### LZC energy sources present:

- Solar water heating
- Solar photovoltaics

#### Your home's heat demand

In this section, you can see how much energy you might need to heat your home and provide hot water. These are estimates showing how an average household uses energy. These estimates may not reflect your actual energy use, which could be higher or lower. You might spend more money on heating and hot water if your house is less energy efficient. The table below shows the potential benefit of having your loft and walls insulated. Visit https://energysavingtrust.org.uk/energy-at-home for more information.

Heat demand	Existing dwelling	Impact of loft insulation	Impact of cavity wall insulation	Impact of solid wall insulation
Space heating (kWh per year)	21,135	N/A	N/A	N/A
Water heating (kWh per year)	2,586			

#### **About this document**

This Recommendations Report and the accompanying Energy Performance Certificate are valid for a maximum of ten years. These documents cease to be valid where superseded by a more recent assessment of the same building carried out by a member of an Approved Organisation.

The Energy Performance Certificate and this Recommendations Report for this building were produced following an energy assessment undertaken by an assessor accredited by Elmhurst (www.elmhurstenergy.co.uk), an Approved Organisation Appointed by Scottish Ministers. The certificate has been produced under the Energy Performance of Buildings (Scotland) Regulations 2008 from data lodged to the Scottish EPC register. You can verify the validity of this document by visiting www.scottishepcregister.org.uk and entering the report reference number (RRN) printed at the top of this page.

Assessor's name: Mr. Grant Williams
Assessor membership number: EES/017058

Company name/trading name: Allied Surveyors Scotland Ltd

Address: 22 Walker Street

Edinburgh EH3 7HR

Phone number: 01312266518

Email address: edinburgh.central@alliedsurveyorsscotland.com

Related party disclosure: Employed by the professional dealing with the property transaction

If you have any concerns regarding the content of this report or the service provided by your assessor you should in the first instance raise these matters with your assessor and with the Approved Organisation to which they belong. All Approved Organisations are required to publish their complaints and disciplinary procedures and details can be found online at the web address given above.

#### Use of this energy performance information

Once lodged by your EPC assessor, this Energy Performance Certificate and Recommendations Report are available to view online at www.scottishepcregister.org.uk, with the facility to search for any single record by entering the property address. This gives everyone access to any current, valid EPC except where a property has a Green Deal Plan, in which case the report reference number (RRN) must first be provided. The energy performance data in these documents, together with other building information gathered during the assessment is held on the Scottish EPC Register and is available to authorised recipients, including organisations delivering energy efficiency and carbon reduction initiatives on behalf of the Scottish and UK governments. A range of data from all assessments undertaken in Scotland is also published periodically by the Scottish Government. Further information on these matters and on Energy Performance Certificates in general, can be found at www.gov.scot/epc.

## PROPERTY QUESTIONNAIRE

The owner of the property is required to complete this document which asks for information on the property such as 'Which council tax band?' etc.

Property Address	Berwick House
	548 Lanark Road West
	Balerno
	EH14 7BW
Seller(s)	Ann May Stephen
Completion date of property questionnaire	

Note for sellers

1.	Length of ownership					
	How long have you owned the property?					
	14 years					
2.	Council tax					
	Which Council Tax band is your property i	n? (Please circle)				
	[ ]A [ ]B [ ]C [ ]D [ ]E [ ]F [ ]G [x]H					
3.	Parking					
	What are the arrangements for parking at your property?					
	(Please tick all that apply)					
	Garage	[x]				
	Allocated parking space	[]				
	Driveway	[x]				
	Shared parking	[]				
	On street	[]				
	Resident permit	[]				
	Metered parking	[]				
	Other (please specify):					

4.	Conservation area			
	Is your property in a designated Conservation Area (that is an area of	[]YES[]NO		
	special architectural or historical interest, the character or appearance of which it is desirable to preserve or enhance)?	[x]Don't know		
5.	Listed buildings			
	Is your property a Listed Building, or contained within one (that is a building recognised and approved as being of special architectural or historical interest)?	[ ]YES [x]NO		
6.	Alterations/additions/extensions			
а	(i) During your time in the property, have you carried out any structural alterations, additions or extensions (for example, provision of an extra bath/shower room, toilet, or bedroom)?	[ ]YES [x]NO		
	If you have answered yes, please describe below the changes which you have made:			
	(ii) Did you obtain planning permission, building warrant, completion certificate and other consents for this work?	[]YES[]NO		
	If you have answered yes, the relevant documents will be needed by the purchaser and you should give them to your solicitor as soon as possible for checking.			
	If you do not have the documents yourself, please note below who has these documents and your solicitor or estate agent will arrange to obtain them:			
b	Have you had replacement windows, doors, patio doors or double glazing installed in your property	[x]YES [ ]NO		
	If you have answered yes, please answer the three questions below:			
	(i) Were the replacements the same shape and type as the ones you replaced?	[x]YES [ ]NO		
	(ii) Did this work involve any changes to the window or door openings?	[ ]YES [x]NO		
	(iii) Please describe the changes made to the windows doors, or patio doors (with approximate dates when the work was completed):			
	New patio doors in kitchen and sitting room in 2023			
	Please give any guarantees which you received for this work to your solicitor or estate agent.			
7.	Central heating			
а	Is there a central heating system in your property? (Note: a partial central heating system is one which does not heat all the main rooms of	[x]YES [ ]NO		
	the property - the main living room, the bedroom(s), the hall and the bathroom).	[]Partial		

	If you have answered yes or partial - what kind of central heating is there? (Examples: gas-fired, solid fuel, electric storage heating, gas warm air).	
	Gas heating	
	If you have answered yes, please answer the three questions below:	
	(i) When was your central heating system or partial central heating system installed?	
	2010	
	(ii) Do you have a maintenance contract for the central heating system?	[ ]YES [x]NO
	If you have answered yes, please give details of the company with which you have a maintenance contract	
	(iii) When was your maintenance agreement last renewed? (Please provide the month and year).	
8.	Energy Performance Certificate	
8.	Energy Performance Certificate  Does your property have an Energy Performance Certificate which is less than 10 years old?	[x]YES [ ]NO
9.	Does your property have an Energy Performance Certificate which is	[x]YES [ ]NO
	Does your property have an Energy Performance Certificate which is less than 10 years old?	[x]YES [ ]NO
