<div>4. SUMMARY</div> <div>Additional actions <input type="checkbox"/> are <input checked="" type="checkbox"/> are not required on the basis of the findings above. If additional actions are required, describe them in an attachment.</div>			
<div>Instructions for Completion of Environmental Clearance Record</div> <div>Environmental Compliance. Single Family Property Disposition is subject to the environmental policy and procedures shown at 24 CFR Part 50, where applicable. An Environmental Compliance Record must be completed for each acquired property prior to listing for sale and the results considered in the development of the terms and condition of the sale. The Contractor shall use the format contained in Exhibit 4, Attachment B-1, for documentation of the review. The compliance record is to be maintained in the individual property file.</div> <div>Preparing the Compliance Record. To document the results of compliance findings, use copies of the appropriate floodplain and airport runway maps, and the National Register of Historic Places, in order to identify those properties that are subject to these three requirements. Instructions for completing the compliance findings on the Environmental Compliance Record are:</div> <div><div>1. Historic Preservation. The National Register of Historic Places identifies specific properties and historic districts which are subject to historic preservation requirements. If a HUD-Owned Property is listed on the register, or the district in which it is located is listed, a deed restriction must be prepared. Consult with counsel for appropriate language to be included in the deed.</div><div>2. Floodplain. Based on the floodplain map, properties located in Special Flood Hazard Areas (SFHA) which are being sold with HUD-insured mortgages or with buydowns or cash rebates, are required to have flood insurance. At the time of assignment of a case to the closing agent, the closing agent must be alerted to this requirement and must ensure that the purchaser obtains flood insurance. Such insurance may be purchased from any state licensed agent. If a property is located in a SFHA in a community which is suspended from or is not participating in the National Flood Insurance Program, the property must be offered on an uninsured basis and without a buydown or cash rebate. Listing advertisements must disclose such properties.</div><div>3. Airport Runway Clear Zones. Based on airport clear zone maps, properties located within the runway clear zone must be offered to the airport operator before the public listing. Property will be sold to the airport in accordance with the policy on sales to local governments described in Exhibit 2. A decision by the airport operator not to purchase must be documented in the file, preferably in the form of a letter from the airport operator. In the absence of such a letter, a note to the file documenting the verbal response by the airport operator is sufficient.</div><div>Bidders on properties located in runway clear zones must provide a signed Notice to Prospective Buyers of Properties Located in Runway Clear Zones and Clear Zones (see Exhibit 4, Attachment B-2). In those few jurisdictions which have properties in runway clear zones, Selling Brokers must be provided with copies of this notice and be advised that it must be included when submitting a bid on a property which is located in a runway clear zone.</div><div>Listing for Sale. Any property which is subject to these historic, floodplain, or airport clear zone requirements must be so identified when listing the property for sale.</div></div>			
<div>NOTE: OTHER ENVIRONMENTAL STATUTES, EXECUTIVE ORDERS AND AUTHORITIES</div> <div>The remaining statutes and authorities cited at 24 CFR 50.4 do not require compliance because they are not relevant to property disposition actions which do not involve new construction.</div>
